## Message from the Chairman

On behalf of the Chaleur Regional Hospital Foundation, I am pleased to present a summary of activities held during fiscal year 2011-2012.

This year, \$562,918 were raised and invested in order to complete various projects for 25 different departments at the Chaleur Regional Hospital. These departments can be divided into the following four categories:

- Equipment for inpatient care – several pieces of equipment were purchased over the past year to enhance the Mother-Child Program, the 4th East and 4th West units, intensive care, pharmacy as well as other services at our regional hospital.
- Equipment to aid in the fight against cancer – the medical imaging and laboratory equipment purchased helps to improve cancer treatment and screening.
- Support for rehabilitation and various clinics – the equipment purchased will help improve the quality of services provided to patients who use cardiac rehabilitation, orthopedic, speech-language therapy, and respiratory therapy services.
- The staff's continuing education remains a priority for the Foundation – we acknowledge that employees are our most important resource and we are proud to support their professional development by offering a bursary fund.

These projects were completed thanks to a vital partnership with the community recognizing that we are working with and for local people. Since 100% of the funds collected within the community are reinvested locally, people can contribute to their health with confidence.

Thank you for believing in our vision that focuses on preserving and developing health care services provided in our region.

Jean-Guy Robichaud  
Chairman of the Board of Directors

## Board of directors

Jean-Guy Robichaud, chairman	Edward Cowan	Dr John LeBlanc
Daryll Stothart, vice-chairman	Philippe Ferguson	Léo LeBlanc
Jennifer Henry, treasurer	Gary Tower	Réginald Paulin
Gisèle Beaulieu, secretary	Alice Hébert	
Donat Bertin	Donald Hammond
