Unveiling of Campaign

Better hospital, better health, better future . . . all thanks to you!

A 23rd year full of commitments and wonderful achievements . . . Each year, we are deeply touched by the generosity of our community of donors, partners, and sponsors. The Foundation is privileged to be able to count on devoted volunteers from all walks of life who enrich our projects thanks to their ideas and skills. A special thank-you to members of the Board of Directors and active members of the various organizing committees who contribute to increasing the visibility of our organization.

In years to come, we will have new opportunities to improve and invest again in our quality of life and health thanks to your donations. Our objectives include new high-tech patient care and diagnostic equipment as well as an interesting new initiative to expand our regional hospital. But at this time I invite you to think about the good that you have done through your donations. Over the past year, a total of \$649,974 was invested to support the following sectors:

- \$488,091 – Patient care (75%)
- \$87,513 – Diagnostic, treatment and follow-up services (13%)
- \$39,000 – Central Service (6%)
- \$35,370 – Training and other (5%)

Chances are someone close to you has already benefitted from one of these new and improved care environments. On behalf of all the patients who have been touched by your generosity, thank you. Thanks to you, our entire region has access to better care environments and better care experiences. Thanks to you, we all enjoy a better quality of life and health!

In closing, thank you for renewing your commitment to the Foundation; in doing so, you make it possible for us to help your children, family, friends, and fellow citizens. This year's success adds to the one achieved in the past years as since 1990, over \$10 million were used to strengthen various sectors in our regional hospital to promote your health. This is what you are supporting through your Foundation.
