

GIVING, IS VITAL TO THE HEALTH OF THE NORTH

RadiothonRoses.ca

THÉRÈSE KERRY FOUR ROADS

« Cancer changes your life! I found it tough. I enjoyed volunteering, I was active, and I had my daily routine at home. It wasn't easy for my family either, who had to drive me to all my treatments. They supported me throughout my battle and made sure I had everything I needed. It's been a few months now since I finished my treatments and I'm doing well! I'm slowly resuming my activities. **I will always be grateful to my family and the staff of the Oncology Clinic at Chaleur Regional Hospital who were there for me throughout my treatments.** »

MARIE-PAULE LANDRY CARAQUET

« I was diagnosed with breast cancer in September 2017. I had to go to Bathurst for my chemotherapy treatments but was able to go home with my husband after each treatment and to continue my everyday routine. Being able to receive my treatments nearby and to return home afterward meant that I could keep working part-time as a waitress and keep up with my dance classes. **For me, it was very important to continue with my regular activities and to have positive people around me.** »

ERIC DOUCET BERESFORD

« I received my second cancer diagnosis in 2017 and I was very fortunate to be able to take my treatments at Chaleur Regional Hospital. This was not the case with my first diagnosis in 2009. As you can imagine, being able to get treatment only a few minutes from home is hugely positive. We are very fortunate to have access to a regional hospital. In addition to saving me time and money, I was able to stay in the comfort of my own home and continue doing my everyday activities.

This might seem trivial, but it makes all the difference on the path to recovery. »

NATHALIE NOËL SHIPPAGAN

« It was in early 2014 that I learned I had cancer. I had never imagined that I would one day be a cancer patient. I suddenly found myself scheduled for a partial mastectomy as well as chemo and radiation therapy. Throughout my ordeal, I saw that being able to get treatment close to home made all the difference. After my hospital visits, I was able to return home and be with my daughter and sons. **When you have cancer, your time is valuable and being able to receive your treatments only a few minutes from home is important.** »

DONATION FORM

PLEASE CHOOSE ONE OF THE 3 FOLLOWING OPTIONS AND INDICATE THE AMOUNT OF YOUR CONTRIBUTION:

- MONTHLY DONATION**
I authorize the Chaleur Regional Hospital Foundation to debit my account for \$ _____ on the 30th day of the month. Please attach a "VOID" cheque.
- ANNUAL PAYMENTS**
Annual payments of \$ _____ for _____ years for a total of \$ _____.
- ONE-TIME DONATION**
I wish to make a donation of \$ _____.

Cheque / money order, with annual reminders if necessary, to the order of the : *Chaleur Regional Hospital Foundation Inc.*

The first payment is included **OR**

will be made on ____ / ____ / _____ dd/mm/yyyy) Visa MasterCard

Card Number : _____ Expiration : ____ / _____

Signature : _____ Date : _____

THE ROSES RADIOTHON IS HELD IN PARTNERSHIP WITH THE FOUR ACADIE-BATHURST HOSPITAL FOUNDATIONS

For the health of our region!

The Roses Radiothon is a unifying event that aims to improve services in the fight against cancer. Each year, the funds raised are invested at the Chaleur Regional Hospital to improve patient care and services, as well as support the campaigns in the Acadian Peninsula.

Over the years, we have invested more than 1.3 million dollars in several pieces of equipment for the screening, intervention and treatment sectors and \$716,476 for the facilities in the Acadian Peninsula.

THIS YEAR, THE ROSES RADIOTHON IS AIMING TO RAISE OVER **\$150,000**

1 PREVENTION AND DIAGNOSTIC-AUDIOLOGY

Side effects of chemotherapy treatments can vary depending on the person, medication used and medication dosage. Side effects of certain medications include hearing loss and/or ringing in the ears in the absence of any source of sound, which are caused by damage to the inner ear structures. The funds raised as part of the Roses Radiothon will be used to purchase two different pieces of equipment for the Audiology Department to help prevent and diagnose these side effects in patients receiving chemotherapy.

2 DIAGNOSTIC – SURGICAL SUITE AND GASTROENTEROLOGY

Intestinal polyps are benign tumours of the colon and rectum. Thanks to the Roses Radiothon, the gastroenterology sector will be able to acquire a second cutting-edge piece of equipment which is used to remove these intestinal polyps.

In the Surgical Suite, the addition of the MyoSure procedure will make it possible to remove uterine polyps and any other uterine tissue via the hysteroscopic route. The advanced technology that this equipment offers will make it possible to treat more complex cases and to shorten procedures.

A polyp is an abnormal growth on the lining of a mucous membrane. There are several types of polyps: some do not evolve and will always remain benign, while others are likely to develop into cancerous tumours.

3 HOSPITAL FOUNDATIONS OF THE ACADIAN PENINSULA

In addition to supporting the Roses Radiothon, the foundations of the Acadian Peninsula will also be supporting their respective campaigns. Of the amounts raised in their areas, 20 percent will go toward the Roses Radiothon to support the fight against cancer at our regional hospital and 80 percent will go toward their needs.

THANK YOU TO OUR PARTNERS

CKLE 92.9 FM and CJVA 94.1FM • CKRO 97.1 FM • L'Acadie Nouvelle • Max 104.9

DONATION FORM

YES, I would like to support the Roses Radiothon.

THANK YOU FOR RETURNING THIS FORM TO:
Chaleur Regional Hospital Foundation, 1750, Sunset Drive, Bathurst NB E2A 4L7
